## **\*\*NOTICE TO CONTRACTORS\*\***

**Effective November 1, 2009**, the pavement assessment fee will increase.

The pavement assessment fee is adjusted based upon the change in the asphalt bituminous index from month to month. When the change in the bituminous index is greater than 20%, it triggers a change in the Pavement Assessment Fee. From the year 2000 to 2007 the bituminous index either decreased in cost or increased no more than 18%. In 2008, the bituminous index increased over 50% triggering an increase in the Pavement Assessment Fee. Prior to November 1, 2009, the pavement assessment calculation was \$500 plus 20% of \$34.00 per square yard restoration cost. Effective November 1, 2009, the pavement assessment calculation will be \$500 plus 20% of \$78.20 per square yard restoration cost. Below is a breakdown of how the increased fees might affect you:

<b>TYPICAL PATCH DIMENSION (S.F.)</b>	<b>OLD PAVEMENT ASSESSMENT FEE</b>	<b>NEW PAVEMENT ASSESSMENT FEE</b>
6 X 6	\$527.38	\$562.56
12 X 6	\$554.75	\$625.12
24 X 6	\$609.50	\$750.24
48 X 6	\$719.01	\$1,000.48
48 X 12	\$938.02	\$1,500.96
